

ARBOR E60 Bifold Door Range – Price List

Arbor's E60 range of bifold doors combines the style and performance of the Arbor Bespoke range but in standard sizes and configurations at a lower cost. Doors are 60mm thick with 90mm wide stiles and top rails and 115mm wide bottom rails and are top hung and bottom guided using Centor E3 stainless steel ironmongery.

All configurations use 28mm thick glazing units as standard.

ARBOR E60 Bifold Door Range

High Security and Stability

- ① Engineered timber sections are used for all door leaf components. Three equal thickness laminations ensure long term door stability.
- ② Centre pivots are used on all doorsets, improving security and long term stability whilst allowing vertical and lateral adjustment.
- ③ High Quality Centor E3 stainless steel door hardware is used throughout the E60 range.

Easy to assemble and install

Door leaves are supplied pre-glazed and with all hinges, bolts, locks and weatherstrips pre-fitted. Frame components have all track, lock keeps and weatherstrips pre-fitted. They are pre-drilled and have locating pegs for easy assembly.
